OFFICE OF THE GOVERNOR GENERAL'S SECRETARY, CANADA

OTTAWA, January 16th, 1929.

SIR,—I have the honour to inform you that His Excellency the Governor General will proceed to the Senate Chamber to open the Session of the Dominion Parliament on Thursday, the 7th February, at three p.m.

I have the honour to be,

Sir,

Your obedient servant,

E. C. MIEVILLE,

Secretary to the Governor General.

The Honourable
The Speaker of the Senate,
Ottawa.

Ordered, That the same do lie on the Table.

The Senate was adjourned during pleasure.

After a while, His Excellency the Governor General having come, and being seated on the Throne,—

The Honourable the Speaker commanded the Gentleman Usher of the Black Rod to proceed to the House of Commons and acquaint that House that,—

It is His Excellency the Governor General's pleasure that they attend him immediately in the Senate Chamber.

Who being come, with their Speaker,

His Excellency the Governor General was pleased to open the Session by a Gracious Speech to both Houses, as follows:—

Honourable Members of the Senate:

Members of the House of Commons:

In opening the Third Session of the Sixteenth Parliament of Canada I desire to join with you in profound thankfulness for the recovery of our beloved Sovereign, King George the Fifth. I share your fervent hope that His Majesty may be completely restored in health, and that he may be spared to continue that devoted service to the Empire which has won for him an abiding place in the hearts of the people.

The unprecedented prosperity which is apparent throughout the Dominion affords cause for the deepest satisfaction. Never in the history of Canada has there been such industrial and commercial expansion as that which has taken place during the past twelve months. The industry and enterprise of our people have been rewarded under Providence with an abundant harvest. In the production of agricultural and other basic industries all previous records have been surpassed. New records have also been established in the volume of construction and in the volume of foreign trade. Employment has been maintained at a high level and all indications point to a continuance throughout the country of the present favourable conditions.

A notable feature of industrial development has been the continued advance and prosperity of the mining industry in almost every part of the Dominion.

The production of the fishing industry during the past year has shown a substantial increase over that of 1927. In accordance with the recommendations of the Royal Commission on Fisheries, the Fisheries Branch of the Department of Marine and Fisheries has been separated from the Marine Branch, and a Deputy Minister of Fisheries has been appointed. A reorganization of the Fisheries Service along lines recommended by the Commission is being effected. Certain other matters covered in the report will, during the present session, be dealt with by legislation.

Plans are in progress of completion for the construction of the National Research Laboratories to provide scientific and technical knowledge for the various branches of production.

The past year witnessed the inauguration of the Canadian National Steamships service between Canada and Bermuda and the West Indies. The many advantages of this service are already apparent. In view of the importance of our ever increasing export trade it is intended to augment and extend the existing facilities for furnishing Canadian exporters with commercial information in respect to foreign markets. It is also proposed to establish additional Trade Commissioner offices at strategic points in different parts of the world.

Communication within the Dominion has been facilitated and improved by an extensive development of air mail services, and communication to all parts of the British Empire by the restoration of penny postage.

The expansion in trade and commerce which the country has experienced has been strikingly reflected in our transportation returns. The net earnings of the railways have exceeded those of any previous year.

Satisfactory progress continues to be made in the construction of the Hudson Bay Railway. The laying of steel is now within thirty-seven miles of the terminus of the line at Churchill, where a substantial commencement has been made in the provision of port facilities. The rapid development of Western and Northern Canada imposes on the railways the necessity of providing increased transportation facilities in the immediate future. A further branch line program by the Canadian National management will be submitted for your consideration. You will also be asked to authorize the acquisition of certain railways in both Eastern and Western Canada, which will constitute potentially important feeders of the Canadian National System.

Amendment of the Railway Act will be sought, granting to the Board of Railway Commissioners wider powers of investigation of affairs in relation to subsidiary concerns, and with respect to the issue of capital stock.

Legislation will be introduced to give effect to a general pension scheme for the benefit of the employees of the Canadian National Railways.

Pursuant to the recommendations of the Select Standing Committee on Agriculture and Colonization, agreements have been consummated with several of the Provinces for the promotion of juvenile settlement from the United Kingdom. Negotiations have also been concluded for the application of a £10 ocean rate to all British immigrants ordinarily resident in Great Britain or Northern Ireland, except agricultural families, house workers, and juvenile immigrants who receive a more favourable rate under the Empire Settlement Passage Agreement. A flow of immigrants commensurate with Canadian requirements and selected strictly for their ability to promote the general prosperity of the country is being satisfactorily maintained.

A royal commission has been appointed to inquire and report as to what financial readjustments are necessary in order that the Province of Manitoba may be placed in a position of equality with the other Provinces of Confederation

with respect to the administration and control of its natural resources, as from its entrance into Confederation in 1870.

Negotiations have also been resumed with the Provinces of Alberta and Saskatchewan with a view to the transfer to these Provinces of their natural resources, and with the Province of British Columbia with respect to the restoration to that Province of the lands of the railway belt and the Peace River Block.

A royal commission has been appointed to inquire into the existing situation respecting radio broadcasting in Canada, and to make recommendations to the Government as to its future administration, management, control, and financing.

Since the close of the last Session, there has been a marked development of the provision for direct personal contact in the discussion of inter-imperial and foreign affairs. The High Commissioner for His Majesty's Government in the United Kingdom of Great Britain and Northern Ireland took up his duties at Ottawa in September. The Japanese Legation was established at Ottawa in July under a Chargé d'Affaires, and the French Legation at Ottawa in November on the arrival of the Minister of France. The Canadian Legation in Paris was opened at the end of September, and steps are being taken for the early establishment of the Canadian Legation at Tokyo. The more effective consultation provided by the personal contacts thus established will, it is believed, serve materially to advance the common interests concerned, and to promote understanding and good-will in our inter-imperial and international relations.

The Multi-lateral Treaty for the Renunciation of War, which was signed on behalf of Canada on August 27, will be submitted for your approval; also a convention between the United States and Canada providing for the preservation of the scenic values of Niagara Falls.

Among other measures to which your consideration will be invited, will be certain amendments to the Dominion Elections Act, the Companies Act, the Fisheries Act, the Narcotic Drug Act, and the Act Respecting Technical Education.

Members of the House of Commons:

The public accounts for the last fiscal year, and the estimates for the coming year, will be promptly submitted.

Honourable Members of the Senate:

Members of the House of Commons:

As you enter upon the duties of another Session, I pray that Divine Providence may guide and bless your deliberations.

His Excellency the Governor General was pleased to retire.

The Commons withdrew.

After some time the Senate was resumed.

PRAYERS.

The Honourable Mr. Dandurand presented to the Senate a Bill intituled: "An Act relating to Railways."

The said Bill was read the first time.

The Honourable the Speaker informed the Senate that a copy of the Speech of His Excellency the Governor General had been left in his hands.

The same was read by The Honourable the Speaker.

Ordered, That the Speech of His Excellency the Governor General be taken into consideration on Tuesday, next.

The Honourable the Speaker informed the Senate that the Clerk had received certificates from the Honourable the Secretary of State of Canada showing that—

respectively, have been summoned to the Senate.

Report of the Librarians for 1928

To the Honourable the Speaker of the Senate.

The Joint Librarians of Parliament have the honour to submit their Report for the year 1928.

The Supplementary Catalogue of books purchased during the year will shortly be available to users of the Library. The list of those books donated to the Library of Parliament is now in the hands of the printers.

The donation list contains many interesting publications. His Excellency the Governor General has graciously presented to the Library two large volumes, entitled respectively, "Ballads and Broad-sides of the Elizabethan Period," and "The Benedictional of St. Aethelwold." The latter volume contains a facsimile of a famous manuscript, dated 963-984, which preserves the remains of English art of the tenth century. The original manuscript is in the library of the Duke of Devonshire, formerly Governor General of Canada.

To the courtesy of the Carnegie Endowment for International Peace the Library is indebted for many volumes concerned with economics and international affairs.

From the Justice Department, through Mr. C. P. Plaxton, there has been received a set of twelve volumes of official documents, including the Privy Council Decision, relating to the Newfoundland-Canada-Labrador Boundary Case.

An interesting volume has been presented to the Library by Mr. L. M. Wilson, son of Mr. L. A. Wilson, member for Vaudreuil-Soulanges. It is a facsimile of a manuscript of the seventeenth century, entitled, "Raretés des Indes." The volume consists of a series of sketches and designs relating to the people, and to the fauna and flora of New France.

Further attention has been paid to the arrangement of material in the vaults, and with the assistance of the Department of Public Works some new shelving is now being constructed. This will slightly relieve the congestion which has existed for some time, to which attention has been frequently directed, and which will increase with accessions to the Library by the annual purchases and donations of new books.

Occasional complaints have been received by the Librarians that material concerning the legislative and administrative affairs of the various Provinces lacks something of completeness. Correspondence with Provincial officials has been carried on, and the Librarians desire to acknowledge the courteous assurances which have been received in regard to the regular supplying of this Library with all annual Provincial documents, and current bills and papers.

Respectfully submitted,

MARTIN BURRELL,

J. DE L. TACHÉ,

Joint Librarians.

Ottawa, February 6, 1929.

Ordered, That the same do lie on the Table.

THURSDAY, 23rd May, 1929.

The Standing Committee on Public Health and Inspection of Foods to whom was referred the Bill X1, intituled: "An Act to make Mental or Physical Unfitness an Impediment to Marriage," have in obedience to the order of reference of the 10th April, 1929, considered the said Bill and now beg leave to report thereon, as follows:—

1. A Bill making venereal disease an impediment to marriage was introduced at the last session of Parliament. After extended consideration in committee it was decided to submit it to various medical bodies throughout Canada for an expression of their opinion.

2. The Academy of Medicine of Toronto appointed a committee to study the Bill and make a report. The last paragraph of their report reads as follows:—

"All means of propaganda for education of the public should be utilized before legislation is passed."

3. Your Committee is of opinion that the principle involved in both last session and this session's Bills is an important one and worthy of every consideration. It feels, however, that legislation such as is proposed to enact by the Bill would meet serious objections in many quarters and that its application would be almost impossible.

4. Your Committee shares the view expressed by the Academy of Medicine of Toronto to the effect that such a measure, before it is placed on the Statute book, must be preceded by a thorough campaign of education amongst the public.

All which is respectfully submitted.

HENRI S. BÉLAND,
Chairman.

HOUSE OF COMMONS,
OTTAWA, 12th April, 1929.

Mr. J. R. VAN WYCK,
The Manager,
Chateau Laurier,
Ottawa, Ontario.

DEAR SIR,—The Joint Parliamentary Committee on the Restaurant has under consideration a change in the management of the Restaurant of Parliament, and has appointed a Special Committee to deal with the matter and to report.

The Special Committee has had the opportunity of discussing the situation with you to-day and desire to make a proposal to the Canadian National Railways, which if entertained, will be submitted to the full Committee for final action.

The suggestion is—

1. That the Canadian National Railways take over for one year commencing with the next Session of Parliament the management of the Restaurant, including Cafeteria, and to continue in the management if found satisfactory to both parties.

2. That the table d'hôte charges (breakfast, luncheon and dinner) be maintained at present prices with special dishes at special prices—the general price charges not to exceed those charged now, including those for special functions and Afternoon Teas.

3. That the standard and quality of the food and the service to patrons to be at least equal to that now offered.

4. That the Railway Company have, of course, free premises, light, heat and caretaking, and the use of all present restaurant equipment—renewals to equipment to be furnished by the Railway Company.

5. That the Railway Company supply all foods, beverages, services, etc., and to receive as its remuneration all the receipts of the Restaurant and Cafeteria and ten thousand dollars (\$10,000) for each ordinary Session of Parliament—any special Session to be specially arranged for as nearly as may be on the above basis.

It is felt that the conduct of the Parliamentary Restaurant by the Canadian National Railways will have an important advertising value to the company, and as the Railway Company is regarded as a branch of Government, this offer is first informally submitted to them, and if discussion is sought we shall be glad to consider any further details of the subject.

Yours truly,

E. B. RYCKMAN,

J. P. HOWDEN,

On behalf of the Committee.

Dear Mr. Howden:

I telegraphed you this morning to say that we accepted in principle the proposal to take over the House of Commons restaurant. As I intimated to you the other day in the corridor, it is not worth while trying to do anything with it this session which is nearly closed, but we will be in shape to open up next year.

I understand you are agreeable to a subsidy of fifteen thousand dollars. If we find we can do it with less, after one year's trial, we will of course re-adjust it. It is not our desire to make money out of the proposition, but rather to do a good job as economically as possible and with as little cost to Parliament as we can.

Mr. Van Wyck, Manager of the Chateau Laurier, will have general direction of the restaurant in the House of Commons, and I am sure that you will agree with me that he will have to run it on a business like basis and with freedom of politics which will be essential for efficient operation. Mr. Van Wyck will be instructed to get in touch with you immediately and get on with the job.

With kind regards,

Yours sincerely,

W. H. THORNTON.

J. P. Howden, Esq., M.P.,

“An Act for granting to His Majesty certain sums of money for the public service for the financial year ending the 31st March, 1930.

“To which Bill I humbly request Your Excellency’s Assent.”

After the Clerk had read the title of this Bill,

To this Bill the Royal Assent was pronounced by the Clerk of the Senate in the following words:—

“In His Majesty’s name, His Excellency the Governor General thanks His Loyal Subjects, accepts their benevolence, and assents to this Bill.”

After which His Excellency the Governor General was pleased to close the Third Session of the Sixteenth Parliament of the Dominion of Canada, with the following Speech:—

Honourable Members of the Senate:

Members of the House of Commons:

I desire to express my appreciation of the expedition with which you have conducted the proceedings of the session of parliament now concluded, and of the attention given by you to its exacting duties.

It is gratifying to observe that it has again been possible to effect a further reduction of taxation, and also a substantial reduction in the Public Debt.

The improvement in Canada’s financial position has been paralleled by a continuous improvement in the financial position of the Canadian railways and by a steady growth in manufacturing and in domestic and foreign trade. The Acts making provision for another comprehensive program of branch line construction by the two railway systems, for the acquisition by the Canadian National System of certain lines of railway in different provinces, for the construction of adequate terminal facilities at Montreal, for the completion of the Hudson Bay railway and harbour facilities at Fort Churchill, and for further

loans to the Harbour Commissioners of our national ports, are indications of your recognition of the urgent demand for more adequate transportation and trade facilities.

The policy of promoting the expansion of trade by assisting the establishment of steamship services abroad has been amply justified. The Canadian National service inaugurated last year to ports in South America has required the addition of more ships than was at first contemplated, and the West Indies service has attracted an increasing export trade. Provision has been made for an increased service to South Africa, also for establishing a new connection with Australia and New Zealand. Provision has also been made for an increase in the number of Trade Commissioners in foreign countries.

Resulting from an exhaustive inquiry and a unanimous report by the Standing Committee of the House of Commons on Agriculture and Colonization, amendments have been made to the Canada Grain Act respecting the storage, shipping, mixing, inspection and grading of grain, which it is believed will more adequately protect the standards of Canadian grain and prove of benefit to the producers.

With a view to the improvement of the existing electoral system, a Special Committee of the House of Commons was appointed to inquire into the Dominion Elections Act and the Corrupt Practices Inquiries Act. After devoting much time and study to the several subjects submitted for its consideration, this Committee also presented a unanimous report, in accordance with the recommendations of which important amendments to the Dominion Elections Act have been enacted. Among other changes introduced by this legislation, provision is made for the future appointment of returning officers by the Chief Electoral Officer, and for a more efficient method of preparing election lists in urban centres.

Among other important measures enacted were Bills respecting pensions to employees of the Canadian National Railways, also amendments to the Narcotic Drug Act, the Fisheries Act, the Insurance Act, and the Juvenile Delinquents Act.

The report of the Royal Commission appointed to inquire into the financial readjustments incidental to a transfer to the Province of Manitoba of its natural resources has been received. The report will be made the basis of negotiations between the governments of the Dominion and the Province with a view to effecting a final agreement.

A Postal Convention has recently been signed whereby the rate of postage between Canada and France has been reduced.

THIRD SESSION OF THE SIXTEENTH PARLIAMENT, 1929

Convention between His Britannic Majesty and the
President of the United States of America

RESPECTING THE
REGULATION OF THE LIQUOR TRAFFIC

PRINTED BY ORDER OF PARLIAMENT

OTTAWA
F. A. ACLAND
PRINTER TO THE KING'S MOST EXCELLENT MAJESTY
1929

Correspondence Between His Majesty's Government in Great Britain and His Majesty's Government in Canada Respecting the Regulation of the Liquor Traffic.

EXTRACT from *Summary of Proceedings of the Imperial Conference of 1923.*
Cmd. 1987. P. 12

During the session of the Conference the question of the regulation of the liquor traffic off the American coasts and of the measures to be taken to avoid a serious conflict either of public opinion or of official action was seriously debated. The Conference arrived at the conclusion that, while affirming and safeguarding as a cardinal feature of British policy the principle of the three-mile limit, it was yet both desirable and practicable to meet the American request for an extension of the right of search beyond this limit for the above purpose, and negotiations were at once opened with the United States Government for the conclusion of an experimental agreement with this object in view.

TELEGRAM

From the Secretary of State for the Colonies to the Governor General

1923

17th December. My telegram 13th December, Liquor Treaty with United States. Following is revised text incorporating amendments proposed by United States Government which His Majesty's Government are prepared to accept. Before authorizing His Majesty's Charge d'Affaires at Washington to sign Treaty His Majesty's Government would be glad to learn whether your Government concur in its terms. Contemplated that Parliament here should be given opportunity of discussing treaty prior to ratification.

Draft Treaty begins:

1. High contracting parties declare that it is their firm intention to uphold principle that three marine miles extending from coastline outwards and measured from low-water mark constitute proper limit of territorial waters.

2. (1) His Britannic Majesty agrees that he will raise no objection to the boarding of private vessels under the British flag outside the limits of territorial waters by the authorities of the United States in order that enquiries may be addressed to those on board and an examination be made of the ship's papers for the purpose of ascertaining whether the vessel or those on board are endeavouring to import or have imported alcoholic beverages into the United States its territories or possessions in violation of the laws there in force. When such inquiries and examination show reasonable ground for suspicion, search of the vessel may be instituted.

(2) If there is reasonable cause for belief that the vessel has committed or is committing or attempting to commit an offence against the laws of the

United States prohibiting the importation of alcoholic beverages, vessel may be seized and taken into a port of the United States its territories or possessions for adjudication in accordance with such laws.

(3) The rights conferred by this article shall not be exercised at a greater distance from the coast of the United States its territories or possessions than can be traversed in one hour by the vessel suspected of endeavouring to commit the offence. In cases, however, in which the liquor is intended to be conveyed to the United States its territories or possessions by a vessel other than the one boarded and searched, it shall be the speed of such other vessel and not the speed of the vessel boarded, which shall determine distance from the coast at which the right under this article can be exercised.

3. No penalty or forfeit under laws of United States shall be applicable or attach to alcoholic liquors or to vessels or persons by reason of carriage of such liquors, when such liquors are listed as sea stores or cargo destined for port foreign to United States of America its territories or possession on board British vessels voyaging to or from ports of United States of America or its territories or possessions or passing through territorial waters thereof, and such carriage shall be as now provided by law with regard to transit of such liquors through Panama Canal provided such liquors shall be kept under seal continuously while vessel on which they are carried remains within said territorial waters and that no part of such liquors shall at any time or place be unladen within United States, its territories or possessions.

4. Any claim by a British vessel for compensation on the ground that it has suffered loss or injury through the improper or unreasonable exercise of the rights conferred by Article 2 or on the ground that it has not been given the benefit of Article 3 shall be referred for the joint consideration of two persons, one of whom shall be nominated by each of the high contracting parties.

Effect shall be given to the recommendations contained in any such joint report. If no joint report can be agreed upon, claim shall be referred to the Claims Commission established under the provisions of the agreement for the Settlement of Outstanding Pecuniary Claims signed Washington 18th August, 1910, but the claim shall not, before submission to the tribunal, require to be included in schedule of claims confirmed in the manner therein provided.

5. Treaty shall be subject to ratification and shall remain in force for one year from the date of the exchange of ratifications.

Three months before the expiration of the said period of one year, either of the high contracting parties may give notice of desire to propose modifications in the terms of the treaty.

If such modifications have not been agreed upon before the expiration of the term of one year mentioned above, treaty shall lapse.

If no notice is given on either side of the desire to propose modifications, treaty shall remain in force for another year, and so on automatically, but subject always in respect of each such period of a year to the right on either side to propose, as provided above, three months before its expiration, modifications in the treaty, and to the provisions that if such modifications not agreed upon before the close of the period of one year, treaty shall lapse.

6. In the event that either of high contracting parties shall be prevented either by judicial decision or legislative action from giving full effect to provisions of present treaty the said treaty shall automatically lapse and, on such lapse or whenever this treaty shall cease to be in force, each high contracting party shall enjoy all rights, which it would have possessed had this treaty not been concluded—Ends.

Please telegraph reply at earliest possible date.

SECRETARY OF STATE FOR THE COLONIES.

TELEGRAM

From the Secretary of State for the Colonies to the Governor General
1923.

24th December. My telegram 17th December, Draft Liquor Treaty with United States. Preamble has now been added setting forth that His Majesty and President of United States of America, being desirous of avoiding any difficulties which might arise between them in connexion with laws in force in United States on the subject of alcoholic beverages, have decided to conclude convention for that purpose. In Article 2 (1), words "its territories or possessions" have been inserted after "authorities of the United States." Should be glad to learn as soon as possible whether your Ministers concur in terms of Treaty and agree this His Majesty's Charge d'Affaires Washington may be authorized to sign.

SECRETARY OF STATE FOR THE COLONIES.

TELEGRAM

From the Secretary of State for the Colonies to the Governor General

LONDON, January 11th, 1924.

My telegram dated December 24th. Draft Liquor Treaty with the United States. In view of recent difficulties which have arisen over seizure of British ships by the United States authorities outside the three-mile limit, His Majesty's Government are anxious to authorize signature of Treaty at earliest possible date by His Majesty's representative at Washington. Governments of the Commonwealth of Australia, New Zealand and Newfoundland have concurred in proposed Treaty. Should be glad to learn as soon as possible whether your Ministers also agree.

(Sgd.) DEVONSHIRE.

NOTE.—The Governments of the Union of South Africa and of the Irish Free State concurred subsequently in the signature of the above Treaty.

TELEGRAM

From the Governor General to the Secretary of State for the Colonies

12th January, 1924. Your telegram of the 11th January. Canadian Government, subject to acquiescence of His Majesty's Government in condition herein mentioned, approves of the proposed Treaty with United States Government in terms set forth in your telegram of 17th December, your telegram 24th December, and approves of the signature of the Treaty by His Majesty's Representative at Washington. Canadian Government has decided that Parliamentary approval should be obtained before it should intimate its concurrence in ratification and assumes that this will present no difficulty. Canadian Parliament will probably meet before the end of February. The Canadian Government approval of proposed Treaty is given on condition that it is understood that, if a joint board to report upon a claim for compensation by a vessel of Canadian registry is required to be constituted under Article 4, selection of person whose name is to be submitted to His Majesty for appointment to the board will be made by it. It is assumed that undertaking by British Government on this point will be sufficient and that provision referring thereto need not, therefore, be included in the Treaty.

BYNG.

TELEGRAM

From the Secretary of State for the Colonies to the Governor General

21st January, 1924. Your telegram 12th January Liquor Treaty. Quite understood that Canadian Government wish to obtain approval of Canadian Parliament before ratification, and similar course contemplated here (See my telegram of 17th December). His Majesty's Government will readily leave to Canadian Government nomination of person to be member of joint board referred to in Article IV, in respect of vessels of Canadian registry, and agree that it is not necessary to make provision in Treaty. Same procedure contemplated in case of other Dominions. Hoped that His Majesty's Representative at Washington may be able to sign Treaty this week.

BETWEEN HIS BRITANNIC MAJESTY AND THE PRESIDENT OF
THE UNITED STATES OF AMERICA RESPECTING THE REGU-
LATION OF THE LIQUOR TRAFFIC, WASHINGTON, JANUARY 23,

[Ratification exchanged, May 22, 1924]

His Majesty the King of the United Kingdom of Great Britain and Ireland
and of the British Dominions beyond the Seas, Emperor of India;

And the President of the United States of America;

Being desirous of avoiding any difficulties which might arise between them
in connection with the laws in force in the United States on the subject of
alcoholic beverages;

Have decided to conclude a convention for that purpose;

And have appointed as their Plenipotentiaries:

His Majesty the King of the United Kingdom of Great Britain and Ireland
and of the British Dominions beyond the Seas, Emperor of India:

The Right Honourable Sir Auckland Campbell Geddes, G.C.M.G., K.C.B.,
his Ambassador Extraordinary and Plenipotentiary to the United
States of America;

The President of the United States of America:

Charles Evans Hughes, Secretary of State of the United States;

Who, having communicated their full powers found in good and due form,
have agreed as follows:—

ARTICLE 1

The High Contracting Parties declare that it is their firm intention to
uphold the principle that three marine miles extending from the coastline out-
wards and measured from low water mark constitute the proper limits of terri-
torial waters.

ARTICLE 2

(1) His Britannic Majesty agrees that he will raise no objection to the
boarding of private vessels under the British flag outside the limits of territorial
waters by the authorities of the United States, its territories or possessions in
order that enquiries may be addressed to those on board and an examination
be made of the ship's papers for the purpose of ascertaining whether the vessel
or those on board are endeavouring to import or have imported alcoholic
beverages into the United States, its territories or possessions in violation of
the laws there in force. When such enquiries and examination show a reason-
able ground for suspicion, a search of the vessel may be instituted.

(2) If there is reasonable cause for belief that the vessel has committed
or is committing or attempting to commit an offence against the laws of the
United States, its territories or possessions prohibiting the importation of
alcoholic beverages, the vessel may be seized and taken into a port of the
United States, its territories or possessions for adjudication in accordance with
such laws.

(3) The rights conferred by this article shall not be exercised at a greater distance from the coast of the United States, its territories or possessions than can be traversed in one hour by the vessel suspected of endeavouring to commit the offence. In cases, however, in which the liquor is intended to be conveyed to the United States, its territories or possessions, by a vessel other than the one boarded and searched, it shall be the speed of such other vessel and not the speed of the vessel boarded, which shall determine the distance from the coast at which the right under this article can be exercised.

ARTICLE 3

No penalty or forfeiture under the laws of the United States shall be applicable or attach to alcoholic liquors or to vessels or persons by reason of the carriage of such liquors, when such liquors are listed as sea stores or cargo destined for a port foreign to the United States, its territories or possessions, on board British vessels voyaging to or from ports of the United States, or its territories or possessions, or passing through the territorial waters thereof, and such carriage shall be as now provided by law with respect to the transit of such liquors through the Panama Canal, provided that such liquors shall be kept under seal continuously while the vessel on which they are carried remains within said territorial waters and that no part of such liquors shall at any time or place be unladen within the United States, its territories or possessions.

ARTICLE 4

Any claim by a British vessel for compensation on the grounds that it has suffered loss or injury through the improper or unreasonable exercise of the rights conferred by article 2 of this treaty or on the ground that it has not been given the benefit of article 3 shall be referred for the joint consideration of two persons, one of whom shall be nominated by each of the High Contracting Parties.

Effect shall be given to the recommendations contained in any such joint report. If no joint report can be agreed upon, the claim shall be referred to the Claims Commission established under the provisions of the Agreement for the Settlement of Outstanding Pecuniary Claims signed at Washington the 18th August, 1910, but the claim shall not, before submission to the tribunal, require to be included in a schedule of claims confirmed in the manner therein provided.

ARTICLE 5

This treaty shall be subject to ratification and shall remain in force for a period of one year from the date of the exchange of ratifications.

Three months before the expiration of the said period of one year, either of the High Contracting Parties may give notice of its desire to propose modifications in the terms of the treaty.

If such modifications have not been agreed upon before the expiration of the term of one year mentioned above, the treaty shall lapse.

If no notice is given on either side of the desire to propose modifications, the treaty shall remain in force for another year, and so on automatically, but subject always in respect of each such period of a year to the right on either side to propose as provided above three months before its expiration modifications in the treaty, and to the provision that if such modifications are not agreed upon before the close of the period of one year, the treaty shall lapse.

APPENDIX

ARTICLE 6

In the event that either of the High Contracting Parties shall be prevented either by judicial decision or legislative action from giving full effect to the provisions of the treaty the said treaty shall automatically lapse, and, on such lapse or whenever this treaty shall cease to be in force, each High Contracting Party shall enjoy all the rights which it would have possessed had this treaty not been concluded.

The present convention shall be duly ratified by His Britannic Majesty, and by the President of the United States of America, by and with the advice and consent of the Senate thereof; and the ratifications shall be exchanged at Washington as soon as possible.

In witness whereof the respective Plenipotentiaries have signed the present convention in duplicate, and have thereunto affixed their seals.

Done at the city of Washington, this twenty-third day of January, in the year of our Lord one thousand nine hundred and twenty-four.
